Congratulations

2006 Dedication

The Class of 2006 is proud to dedicate this year's edition of Gray Matter to our class mentor, Dr. TJ Pulliam. TJ will go down in the record books as the most active class mentor in WFUSOM history. In fact, TJ is so involved that we truly consider him a member of our class.

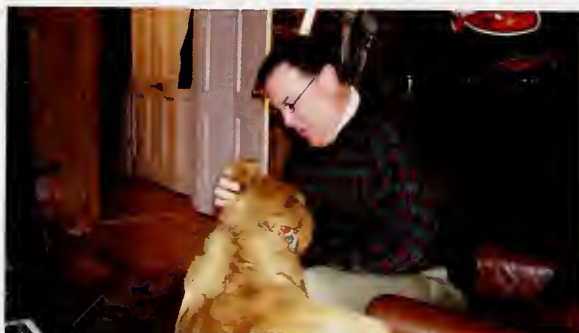

TJ not only volunteered his valuable time to mentor the Class of 2006 but also involved his wonderful family. TJ, Nancy, Ben, Ross and Sam all opened their house and hearts, and genuinely invited our entire class into their lives. The Pulliam's hosted unforgettable parties for the Class of 2006 and were instrumental in bringing our class closer together. Their front door is always open and we all have permission to call their home at any hour. The Pulliam's generosity and friendship have made a lasting impression.

**Dr. TJ
Pulliam**

TJ has played many roles in our lives - friend, mentor, and teacher. He has provided both professional and personal advice to many of us when we were at an important crossroads or facing a seemingly impassable roadblock. Not to mention, just when we thought we could not go on at the end of Phase III, TJ thoughtfully sent each of us an inspirational message and button with the words, "CAN DO!"

We the Class of 2006 would like to thank you, TJ, for your generosity, support, and commitment as our class mentor. Though we will all part ways in May to continue our training, we will never forget you!

Acknowledgments

Dr. Julia Cruz

Dr. Julia Cruz, Mama Cruz, has meant more to the Class of 2006 than she can possibly imagine. One of our fondest memories is from second year when, after tirelessly teaching us for three weeks straight and putting up with countless comedy routines, Dr. Cruz still had the energy to invite the entire class into her home and to greet us as family. We claim that we are her favorite class, and as all her adopted children we know this to be true. Dr. Cruz donates her time, energy, and most importantly her tremendous culinary skills to us. She is a role model and truly an inspiration to the Class of 2006. We look forward to partaking of her hemoglobin cake in the future as both physicians, colleagues, and adopted children of Mama Cruz.

Mark Twain once wrote, "To be good is noble, but to teach others how to be good is nobler--and less trouble." Although he may disagree with the latter part of this quote, Dr. Pat Ober has spent much of the last four years teaching us to be good physicians. From leading the Endocrinology block to working as the Associate Dean for Education, Dr. Ober has demonstrated both his great love of teaching and his dedication to educational excellence. But he has not stopped there. Be it through inspirational emails or hallway chats, Dr. Ober has consistently reminded us that we should also strive to be good people. We the Class of 2006 would like to honor Dr. Ober for his enthusiasm, his countless hours of hard work and effort, and above all for leading by example.

Dr. Patrick Ober

Lynn Snyder

At the end of four years, the individual credited with having the biggest impact on our education and success is Lynn Snyder. She is integrally involved in every aspect of our training from the first day of our first year to the day we finally graduate. Most importantly, her knowledge and flexibility are instrumental in helping arrange our fourth year schedules and ensuring the residency application process runs smoothly. Lynn devotes her time and energy to a number of student programs and initiatives and always has the students' interests in mind. She is a great friend and a wonderful resource for each student at Wake Forest. We the Class of 2006 are grateful for everything Lynn has done during our time here as students.

INTRODUCTION

Welcome to our world...a world which rotates at warp speed upon an axis of humanism, clinical acumen, and the ever increasing body of evidence-based medicine. This is a world where day and night coexist during sustained stretches of studying or late-night call. In this world, the best and the brightest commit great sacrifices to serve the global community through the art and science of medicine. Here, we are taught to make a world of difference in the world of medicine by a phenomenal constellation of faculty and staff members. As the Class of 2006 prepares to participate in the diaspora of life after the match, we can only hope to spread our knowledge like infectious particles.

The Class of 2006 pledged itself to the causes of volunteerism and service. We continually opened our arms to embrace the needs of our local and regional community. We are proud to say that 100% of our members have participated in volunteer activities during the past four years. Likewise, we supported the disaster relief efforts and were excited to see our medical school family embrace those affected by adversity.

To achieve life's greatest accomplishments requires continual change and progression toward who we are ordained to become. This progression is

likened to a journey lined with pit stops, roadblocks, traffic circles, and detours. When we travel along this journey, as children, we ask, "Are we there yet?" But, now that we have been thrown into the surrealism of adulthood, and we take these final steps along this path toward graduation, we look back at our lives and ask "How did we get here?"

In the outside world, simple questions merit simple answers. However, in our world we understand that simple questions lead to a complexity of answers and even more questions. We also understand the limitations of this art. We are confronted with the realities of the idiopathic and the incurable. In this world of medicine, there are no absolutes. The dichotomy of black and white ceases to exist...we have come to know that Gray really does Matter.

Let these next few pages serve as a reminder of how we accepted the greater challenge and found ourselves in the process.

Introduction written by Leron Jackson

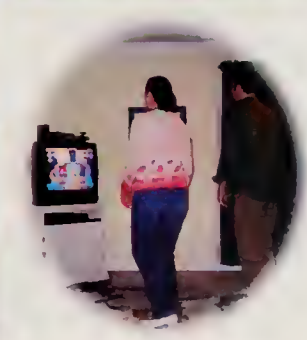

No man is a
good physician
who has never
been sick.
~Arabic Proverb

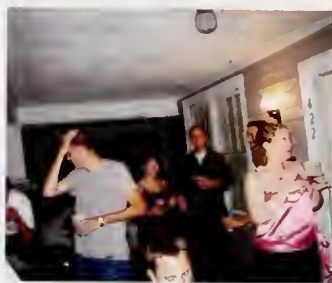

You have a cough? Go home tonight, eat a whole box of Ex-Lax - tomorrow you'll be afraid to cough. ~Pearl Williams

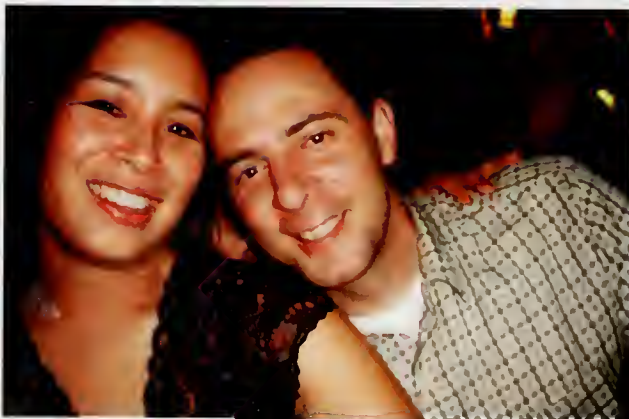

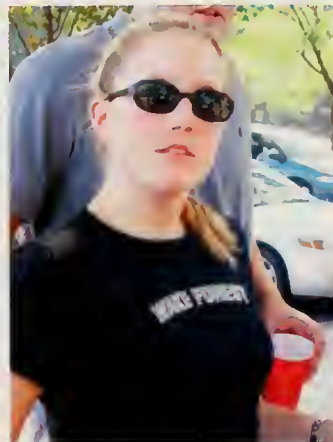

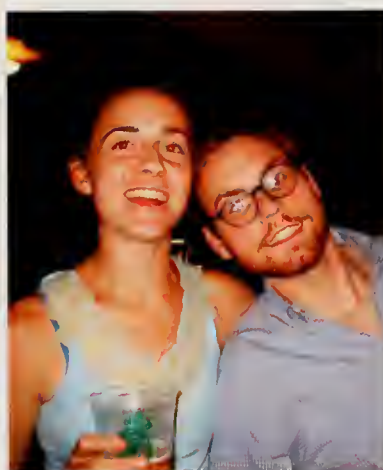

"Who needs sleep?" -Barenaked Ladies

'But — you're a medical student!'...
 'That doesn't mean that I have to close my mind to the rest of life.' "

— Madeleine L'Engle, *The Love Letters*

Now...

...and
Then

Award for Teaching Excellence

Dr. David Jackson

Dr. David Jackson is a familiar presence to all Wake Forest medical students from the beginning of our first year. For most of us, he is the first person to introduce us to the art of the physical exam - a skill that is an integral part of our career as physicians. A Wake Forest graduate himself, Dr. Jackson has dedicated a large part of his career to educating those of us following in his footsteps. When he is not on E-floor teaching us how to be clinicians, Dr. Jackson stays busy as Assistant Professor and Executive Vice-Chairman of the Department of Family and Community Medicine. But to us students, he will always be the person we think of when we ask a patient to say 'toy boat!' The Class of 2006 would like to thank Dr. Jackson for his dedication to us and to all students by honoring him with the Award for Teaching Excellence.

Charles B. Clark Memorial Award for Outstanding Service to the Senior Class

On the first day of orientation, Dr. T.J. Pulliam introduced himself as our class mentor and vowed to always be available to us night or day. He has since proven those words to be true by opening his arms, his home and even his family to the Class of 2006. He has been a constant presence in our lives over the past four years, motivating and encouraging us. Dr. Pulliam is a member of the WFU School of Medicine Class of 1984 and completed his residency training here as well, joining the faculty and was named Vice President of Professional Affairs. Although he left the faculty in July of 2005 in order to pursue a Masters of Medical Management, he has continued to take his commitment to our class seriously. Dr. T.J. Pulliam has been an excellent example of what we should strive to be as physicians and leaders of our community. The Class of 2006 salutes him for his outstanding service to our class .

Dr. T.J. Pulliam

Gold Humanism Honor Society

Founded by Dr. Arnold Gold and wife, Sandra, the Gold Humanism Honor Society honors senior medical students recognized by their classmates for "demonstrated excellence in clinical care, leadership, compassion and dedication to service." The society represents a chance to reward students who embody the historic pillars of the profession. The Wake Forest University School of Medicine chapter was chartered in 2004.

Fourth Year

Alumni Dinner

September 9, 2005

Senior Superlatives

Most Likely To...:

- ~ Be late on July 1, 2006: Nicole Lewis
 - ~ Switch residency programs at least three times: Kevin Fung
 - ~ Wear scrubs every day of residency: John McMullan
- ~ Be the resident medical students warn each other about: Emily Gordon
- ~ Fall asleep during rounds: Kent Broberg
 - ~ Be off in La La Land during rounds: Bill Cleaver
- ~ Show up at every meeting featuring free food: Shau-Shau Lin
- ~ To be mistaken as a med student when they are an attending: Cathy
 - ~ Be making >\$500,000 by 2011: Chuck Matthews
- ~ Still be at Wake in 2056: Scott (and Mario!)
- ~ Win the Nobel Prize: Dory Brown
- ~ Leave Medicine to start a band: Lane Graves
 - ~ Moonlight as a stand-up comedian: CJ Atkinson
- ~ Appear on Reality TV: Dan Decker
 - ~ Be the first to retire: Doug Powell or Dave Werle

*"Chaos is a
friend of mine."
-Bob Dylan*

*"No one ever listens
to me. They didn't
even notice that I
was in the room."
-Med student on the
show ER*

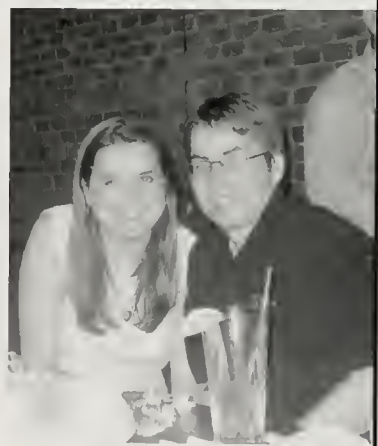

"You see Dr. Wen in there? He's explaining to that family that something went wrong and that patient died. He's gonna tell them what happened, he's gonna say he's sorry - and then he's going back to work. Do you think anybody else in that room's going back to work today? That's why we distance ourselves; that's why we make jokes. We don't do it because it's fun. We do it so we can get by. And... sometimes because it's fun. But mostly it's the getting by thing."

-Dr. Cox on Scrubs

To my Dearest and Newest Fellow Alums –

What a pleasure it is for me to welcome you into the ranks of our alumni group! Though likely a blur to you, I can remember your first day of med school orientation so very clearly. Your transformation from appropriately apprehensive aspirants into careful yet caring clinicians has been truly remarkable. I doubt that you would actually recognize your former selves. Your Class Mentor is so mighty, mighty proud of how you have become what you wished to become. You have already done our Wake Forest University School of Medicine proud and I have perfect confidence that we will continue to be so very proud of you as you go into this next important stage of clinical training.

Your professional journey is an important one. In this journey, you will be challenged on so many levels – brain, body, heart and emotion will all be tested, refined and continually redefined if you remain open to the many lessons that medicine still has in store to teach you. In all things, make sure to “keep it real”. Real human. For in remaining truly human and operating from your authentic self, you will be able to fully embrace the humanity and needs of your patients and their loved ones. Just as long as you aim to remain true to yourself, you will be a blessing to those for whom you care.

We Pulliams of Banbury Road will keep our door always open to you and trust that you will choose to visit and keep in touch.

With warmest and fondest regards,
TJ Pulliam, MD
WFUSM Class of 1984

I do not have a personal banker anymore, I drive instead to a tinted window where an anonymous face greets me cheerfully, disposes promptly of my banking needs and mispronouncing my name [I do not blame her for that] sends me off with a "Have a good day".

Today is certainly a "Good day" for your class. After four, sometimes grueling, years of hard work you will join the most noble of the Professions, that of Medicine. You have been chosen as those for millenniums before you to be the "Healer" of your community. Knowledge of the Science of Medicine is essential for healing but only part of it. Healing requires other attributes: Listening, counseling and touching real human beings, knowing their life, their faith and the fear of what Illness may affect their day, weeks or years to come.

So is the best yet to come? or is the hard part just beginning? As you may guess it is a mixture of both. The Grueling schedule, the missed dinners, the agonizing time of wondering if you made the right decision are vastly compensated for by the smile of a recovering patient, the gratitude of an entire family, the extraordinary feeling that you might have actually saved someone's life or a simple heartfelt "Thank you Doc". This is what "Have a good day" means to a physician. Other days when in spite of our efforts we must concede defeat, the scientist retreats to provide comfort if nothing else.

Empathy and Compassion must accompany Scientific knowledge to fulfill the ideals of your profession and might serve you well in your private life. I think this Institution has provided you with the tools to fulfill those ideals. I Thank you personally for the Joy of sharing my experience with you. Good Luck and God Bless.

Walter M. Roufail M.D.
Professor of Medicine/GJ

TWO OBSERVATIONS (AND A SMATTERING OF ADVICE) FROM DR. OBER TO THE
ILLUSTRIOUS CLASS OF 2006

OBSERVATION #1:

On your journey through life, you will usually be the person who decides how happy or how
miserable you will be.
Most of our miseries are self-inflicted.

[Choose to be happy.]

"My life has been filled with many tragedies, most of which never occurred."

- Mark Twain

•

OBSERVATION #2:

No matter how noble and wonderful and grandiose your dreams and goals for the future may be,
the fact remains that life is lived only in the present, and we often overlook the most important
things in our lives because they seem so small and trivial at the time, in comparison to the big
things we are going to accomplish...some day....

[Take pleasure in the small things.]

"When you wake up in the morning, Pooh," said Piglet at last, "what's the first thing you say to
yourself?"

"What's for breakfast?" said Pooh. "What do you say, Piglet?"

"I say, I wonder what's going to happen exciting today?" said Piglet.

Pooh nodded thoughtfully.

"It's the same thing," he said.

- A. A. Milne

K. Patrick Ober, MD

Hey Folks,

And so off you go, many to new places and all to new challenges and responsibilities. You don the hood and become "Doctor" a mere 1378 days after learning (I hope) the four basic tissue types on August 6, 2002. It was my pleasure to be with you that day and at each subsequent lecture and lab (although I am pretty sure I was missing a few of you at some of those Phase II sessions...). Each group of students seems to have and develop its own personality; I will remember your class for your obvious commitment to your calling and to each other, for your abundant compassion, and for your outstanding sense of humor; the latter evidenced, of course, by your willingness to laugh at most of my jokes. As an inveterate quoter of those more gifted with words ("a pretty gift for quotation ...is a serviceable substitute for wit," said Somerset Maugham), I give you as my last offering a few lines from my favorite doctor, the one named Suess:

On and on you will hike
and I know you'll hike far
and face up to your problems
whatever they are.

You'll get mixed up, of course,
as you already know.
You'll get mixed up
with many strange birds as you go.
So be sure when you step.
Step with care and great tact
and remember that Life's
a Great Balancing Act.
Just never forget to be dexterous and deft.
And never mix up your right foot with your left.

So look out for strange birds, watch where you step, and remember with pride what you accomplished here. Congratulations to you all; I wish you peace and all good (pax et bonum, if you remember your Latin) and a long lifetime of learning, service and happiness.

May you be blessed with light both within and without, in all of your comings and goings.

DRR

(aka, David R. Riddle, Ph.D.)

Goodbye to the Class of 2006

I just reviewed each photograph in the eWake Student Rollbook for your Class of 2006. As I linger over each photograph I am reminded that one of the great perks of my job is watching people develop and change over the four years of medical school. The distance you have traveled from the first day of school is not nearly as far as the journey that you are about to make into clinical practice. There are many specific memories for each face from Anatomy, the Neuro block, small groups, SPAs and most recently the Phase V procedure lab. I want you all to know that I count it a tremendous privilege for me to have served and taught each of you as individuals. It was especially gratifying to be with you during the earliest period of your entrance into medicine.

All of you, without exception, have responded well to the challenges of medical school by adapting again and again to a very dynamic environment with severe and changing demands. I am excited to congratulate each and every one of you on a job well done and I encourage you in the adventure that lies ahead. It's now time to cast the seed to the wind, to scatter your class across the country and perhaps the globe. I have trusted my health and literally the lives of my loved ones to some of my former students. It is very likely that many of you will serve me or my family members in this way sometime in the future. I hope to see and know you again in the future in a new way; not only as a former student but as a friend, as a colleague and most of all as a faithful, highly caring and competent physician. God Bless You All and Never Forget That As Long As I Am Able, I Am Always Available To Help You In Any Way I Can.

Jim Johnson

My heartiest congratulations to the Class of 2006! You will now move into residency, the definitive training experience of your medical career.

After over 30 years of interacting with WFUSM students and with residents from all over the United States, I can tell you that you no matter where you train, you will be among the most clinically adept individuals in your residency program. That opinion is not only from my own experience, but reflects feedback from numerous program directors and department chairs.

Residency, in a very real sense, is starting over with a clean slate. Almost no one in your residency program knows or much cares where you went to medical school, what was your class rank or what you scored on the NBME exams. Your reputation will be defined anew by your dedication to your responsibilities, your commitment to good patient care, your interest in learning, your sense of teamwork and your manner of interacting in a professional and humanistic manner with patients and colleagues.

I assure you that medical school performance is not an especially accurate predictor of who will excel in residency. I readily recall several former WFUSM students ranked in the lower half of the class in medical school who were chosen chief resident of some of the most prestigious training programs in the U.S. I encourage you to think of your potential to excel in residency as unlimited and largely self-determined. In that spirit, I challenge you to bring to bear your full talents over this important training period, remembering at the same time to maintain a healthy balance between your professional and personal life. I wish each of you the best of luck!

Michael R. Lawless, MD
Professor of Pediatrics

Dear Scholars,

Best wishes to you for a future full of professional achievement, personal cheer and well deserved prosperity. And try to make it back for Alumni Weekend every once in a while....mebbe we can arrange a special all day session entitled "What's new with the Non-Oxidative Leg of the Pentose Phosphate Shunt".

Sincerely
Peter Smith

Dear Graduates--2006

Soon you will have the green hood placed on your shoulders telling the world that you have received the Doctor of Medicine Degree which carries with it new responsibilities. When one passes from the known to the unknown many new challenges occur. I am very confident that you will meet those challenges and function as a caring physician. The hood will help recall the fond memories you had during the four years of medical school.

The road you traveled to achieve your goal, M.D. presented many obstacles but with help and your determination you were successful—Congratulations.

I am very pleased and honored to have played a small role in your medical education. I enjoyed the relationship with you in the laboratory small group, anatomy elective and the chit chats.

Once again Congratulations and Best Wishes.

Walter Bo

Marilyn Savant was once asked what was the one piece of advice she would give her children. She replied: "The length of your education is less important than its breadth, and the length of your life is less important than its depth" These are great thoughts. I would add "so don't forget to root for your favorite team, tell your family that you love them, and be thankful for every sunrise!"
Congratulations class of 2006 and keep in touch

-Patty Adams

To the Class of 2006

Good health is a gift that is often as fleeting for the rich as for the poor, for the powerful as for the humble, and for the young as for the old. To be trusted to heal and care for those without it is also a gift even though such privilege is earned through much toil, perseverance, and trial. And so to neglect this gift or take it for granted invites the exhortation 'physician, heal thyself'. Live up to your calling, foster good deeds, and build lasting relationships. Drink water good for the soul. Only out of the richness of that supply comes the grace to deal with life's adversities beyond exams and the resource to lavish thanks on those who have had a share in your successes. You have all started the race well. I am part of a parade of cheering faculty, friends, and family that are witnesses to that growing process. The test of life ahead is to finish the race well.

Craig K. Henkel, Ph.D.
Professor, Neurobiology and Anatomy

To the Class of 2006,

It has been a privilege to know each of you and to participate in your education. Heartiest congratulations to all of you for reaching your goal of graduation from medical school. Now you are ready to begin the next chapter which is sure to be complicated. It is important that you continue to have determination, optimism and patience. I am confident that your rewards will be great and that your life as a physician will be enriched with moments of epiphany and clearness of vision. Stay attentive to those you love. Listen carefully. Find what continues to inspire you and indulge in it often, whether that be mountain climbing, music, reading, photography... Share what you love with those you love. Stay in touch and remember that you have friends and supporters here at Wake Forest.

**With all my high hopes, congratulations and best wishes for your future,
Marcia Wofford**

 Health

Global Health Conference

October 8, 2005

The Wake Forest University School of Medicine hosted The Southern Regional Global Health Education Consortium Conference: "Your Ticket to International Health". Over one hundred conference attendees learned about international health issues as well as ways to get involved. Registration fees raised over \$5,000 for Dr. Michael Hines' organization, Physicians International Cardiac Outreach.

The conference was organized by Tim Plonk MSIII and many other medical students working through the International Health Medicine Interest Group.

The planning committee would like to thank the following organizations, WFUSM departments and people for their support of the conference: GHEC; Wake Forest University School of Medicine; WFUSM Office of International Affairs; WFUSM Office of Continuing Medical Education; WFUSM Office of Student Services; WFUSM Student Government; the WFUSM Departments of CT Surgery, Family Medicine, Neurosurgery, Urology, and the Division of Surgical Sciences; Academic Computing; William B. Applegate, MD, MPH; Joseph Ernest, MD; Lynn C. Snyder; Jo Patterson; Michael Hines, MD; Northwest AHEC of NC; VWR International.

This year's "Share the Health" Fair had a record turn-out of over 625 participants, 325 of whom received free basic health screenings and optional physician consult.

Participating physicians: Dr. Joseph Ernest, Dr. K. Patrick Ober, Dr. James Peacock, Dr. Brenda Latham-Sadler, Dr. Jim Wofford, Dr. Marcia Wofford, Dr. Mark Knudson, Dr. Richard Lord, Dr. Shari Barkin, Dr. Patricia Adams, Dr. Erica Reynolds, and Dr. Mary Greiner.

Contributing Organizations: Northwest Area Health Education Center (AHEC) of WFUSOM, WFUBMC Wellness and Corporate Health Services, Alpha Omega Alpha Honor Medical Society, Association of American of Medical Colleges, WFUSOM Classes of 2006, 2007, 2008, 2009, WFUSOM Student Government (proceeds from Holiday Ball), WFUSOM Student Services, WFUBMC Obstetrics/Gynecology Department, WFUBMC Emergency Department plus many community businesses who donated food, flowers, or prizes.

Congratulations

To the new M.D.'s!!!

From your: Parents, Children,
Spouses, And Friends

Mike Toscano and Friends

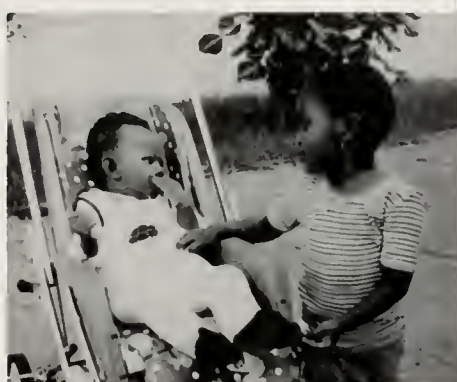

Mike -- Congratulations and Good luck from ALL of us!

Love, Mom, dad, Dave, Aunt Theresa, Uncle Ken, Kathy, Rod,
Paula, Sharon, Willy, Christopher, Nicholas....Rami, Ben, Jeff, Phil,
Gabby, Stan, Bunny.....Pasquale, Gino.....Mario, Mario, Mario,
Mario.....

Anita, You have come a really long way from caring for your baby brother to a vocation to serve humankind. We are greatly encouraged by your accomplishments and thank the almighty God for the guidance and protection and Wake Forest for the opportunity. We are so proud of you.

Love, Daddy, Mummy, and Brother

You always had "roots." Now you have "wings." We are so proud of you!

Love, Mom and Dad

Felicidades Javier!

We are so proud of your accomplishments and hard work.

You have been the best father, husband, son, and brother we could ever have wished for. We love you! Dios te bendiga.

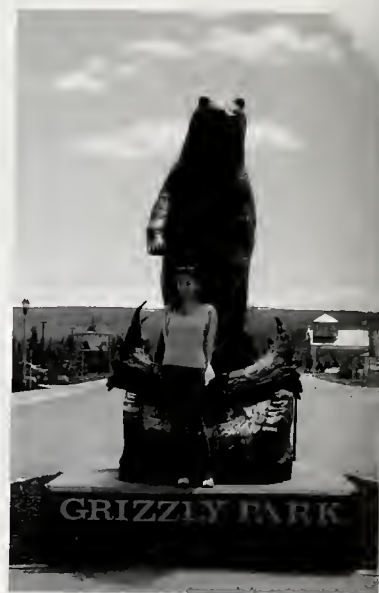

Con muchísimo cariños,

Your family

**To our lovely daughter:
We thank God everyday for you. You are a sweet and wonderful daughter and person. We are so proud of the young woman you have become. May you always find happiness and may God watch over you wherever you are. We love you and miss you.**

Mom, Dad, and Michael

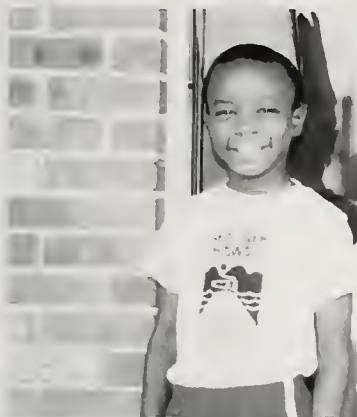

**You always thought big when you were small and now it has paid off,
Dr. Charles Harrison Matthews!**

On this occasion, we want to thank you for being a wonderful husband, son, and brother. Whether it's the resolve to achieve your dreams, the charm that enchants those about you, or the grace displayed under all circumstances, you inspire us in these and so many other ways. For this, we thank you, and wish you the most loving and heartfelt

CONGRATULATIONS!

*All of Our Love,
Janiesha, Mom, Dad, Tamarra and Rusty*

Our Dearest,
You could not have done it without us! Lots of loving licking, Lucy and Mishka

Queridísima Isabel,
Quien te quiere a ti?
Todos nosotros que nos reunimos aquí para celebrarlo contigo y decirte lo orgullosos que estamos, sobre todo yo, tu Mommy que tanto te quiere, y Geoff, tu futuro maridín y cocinero personal.
Felicidades por tu graduación! Con muchos besos y abrazos, Mommy, Paul, Geoff, Ryan

Congratulations Dr. Bubba! I have always admired and looked up to you, my amazing older sister. I knew you would go far after you asked for that chemistry set at age 12...and here you are! Go get 'em, bubba. I love you, Ryan.

and
Grandma

(and Boomer too!)

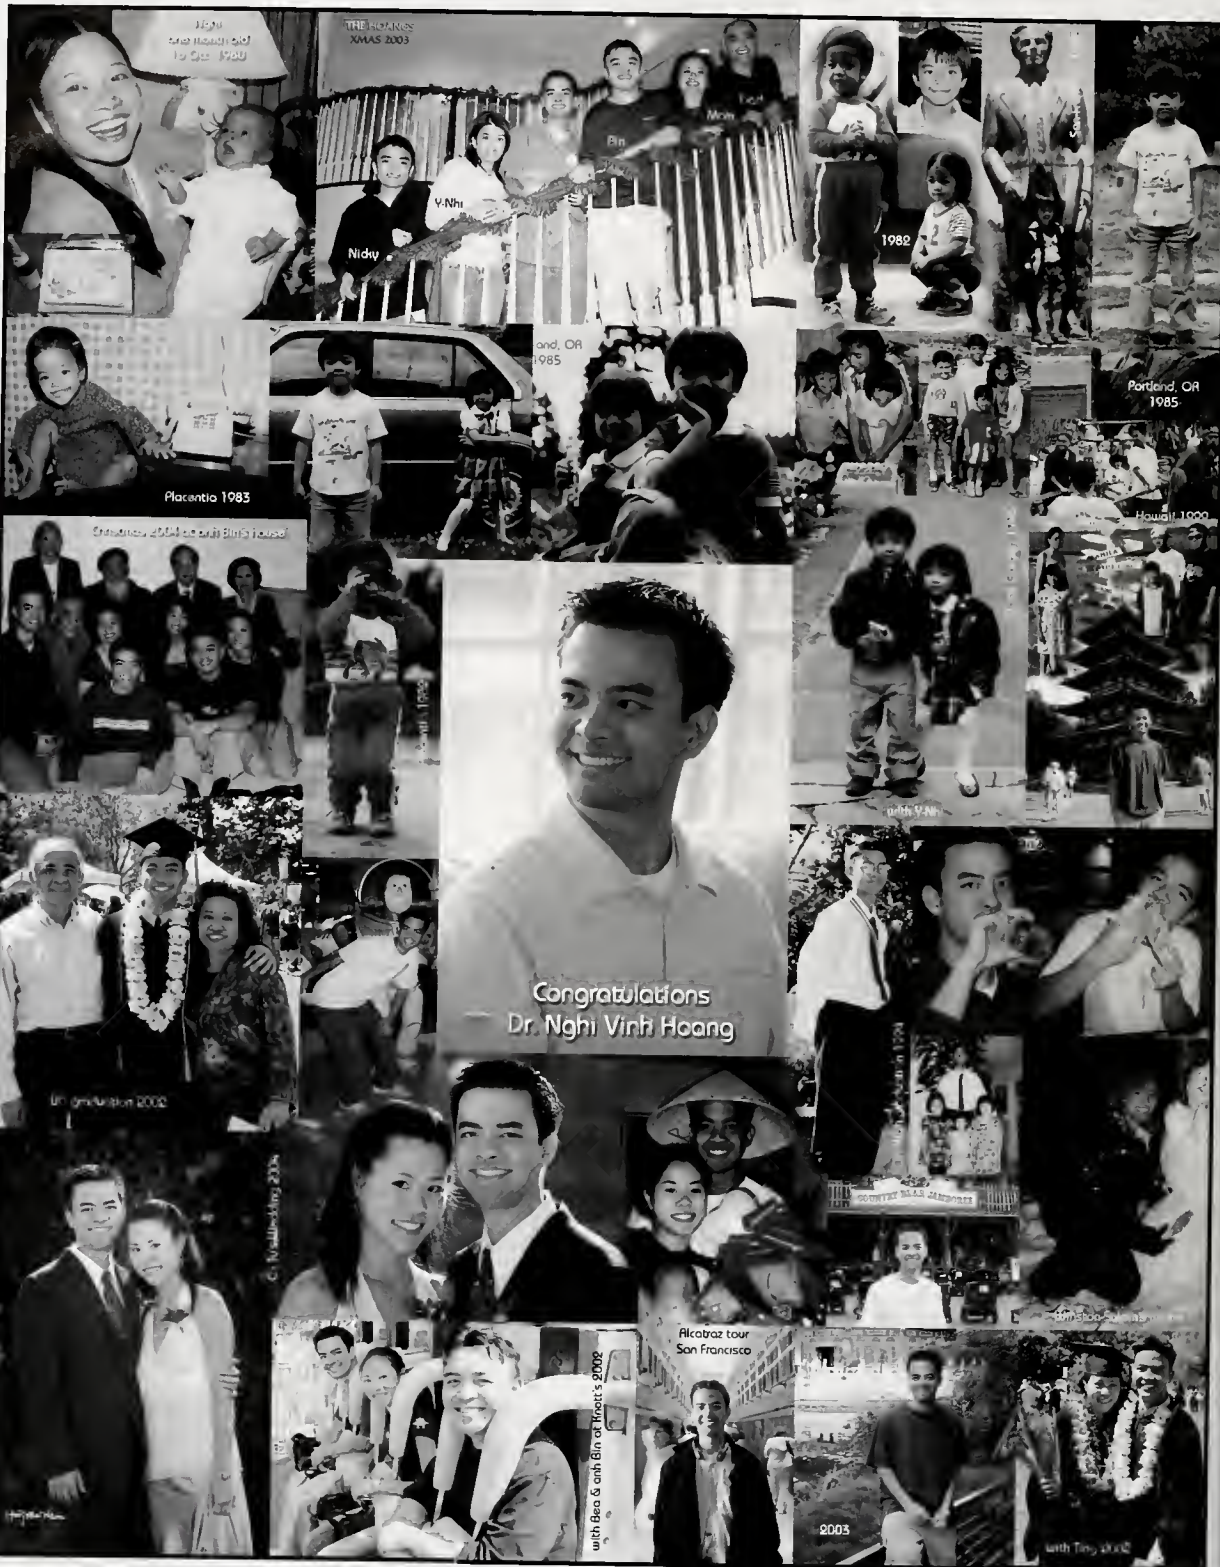

CONGRATULATIONS

Charlene: We are very proud of you. Please, follow your dream. We love you. From Mom, Dad, & Tomo

Troy V. Abernathy M.D.

You made it to the top!!

WAKE FOREST UNIVERSITY SCHOOL OF MEDICINE

Thomas Jefferson University

Morehouse College

Sherwood High School

Farquhar Middle School

Sherwood Elementary School

Alexander School

It has been a long and steep journey but you followed your dreams, focused on your goals, and climbed the steps. We are so veyr proud of your perseverance, your dedication, your strength, and you success.

Congratulations Troy!!!

With Much love and pride in the man you are,

Mom, Dad, Thomas Jr., and Yasmeen

Congratulations Dr. Simstein!

A promise kept and a dream come true. We are so proud of all you have accomplished and look forward to the next step wherever you may go.

Love, Mom, Jessie & Julian, Julie & Patrick, Audrey & Sophie

What happened?

I am so proud of you!
Congratulations! Love,
mom

Today, if we could hear
the glorious sounds of
Heaven, we would hear
the voice of your
Gran Gran saying,
"Isn't she something?"

You have persevered on the journey He has laid before you with grace, honor, and humor. How blessed we are to call you ours.

Congratulations, Susan, with all our love!

Mom and John

"Every job is a self-portrait of the person who does it. Autograph your work with excellence."

Congratulations, John Simpson Clapp! With love from Susan, Darcel, and Alan; Dad and Mom; Catherine, Lam; Bill and Louise; Laurie, Andrew, Marlet, Emma, and Jake.

All our dreams can come true
if we have the courage to
pursue them--We are very
proud of your accomplishment
and love you very much!
Mom and Family

It's been quite a journey, Matt, to achieve your goal, with many life experiences
along the way. As you go off into the world to practice medicine, words can't
describe how proud we are. WE ALWAYS KNEW YOU COULD DO IT.
CONGRATULATIONS, DR. BIRNBAUM from your family.

You've had this goal for so many years.
 To reach it, it's taken long hours and tears.
 You've sacrificed over 4 years of your life,
 With help from a cute daughter and a beautiful wife.
 We're so proud, Doc Clevenger, of all that you've done.
 You're a truly remarkable, wonderful son!
 Love you lots, Mom and Dad

Even at the age of 2, you must
 have known what you wanted
 to be. We're proud of you and
 love you! Congratulations!
 Mommy, Daddy,
 Anna, and Andy

You never cease to amaze me.
 We are so proud to call you
 ours! All our love,
 Stephanie & Liam

Congratulations Scott!
 We've enjoyed the ride

Love, Mom, Dad,
 Keith, Casey, & Emma

Congratulations Robert
Love, Susan, Andrew,
Tyler, Mom & Dad

Oh! The places
you'll go!

You have always chosen
the more difficult road
and we are oh, so proud!
All our love, Mom, Dad,
Paul, Allison, & Nana

Sean, You finally made it.
What an accomplishment. Your
whole family loves you and are
very proud of you. Love, Mom,
Dad, & Matthew

Sean--Your accomplishments will never
cease to amaze me. As these 4 years have
passed, I have watched you grow into what
you are meant to be. I am privileged to
share this life with you and proud to call you
my husband. Love you, Jenn

B happy.
good.
yourself!

All our love,
Mama, Daddy, and Ellen

nancy pham-thomas

dearest nancy,

we are so proud of your hard work and commitment to a lifelong dream. this is not an accomplishment that has made you, but one you have made all your own. you are an intelligent and caring woman who will keep growing into an equally talented doctor. best wishes in all that your career has to offer. we love you very much!

mom, pierre, michael, paul & jen

my dear nancy,

i am very proud that you have patiently endured this long journey - through all its sweat, tears, frustration, laughter and happiness - in order to reach your goal today. your dedication is admirable. your new life is ahead for you to embrace with joy. enjoy!

with much love, dad

nancy,

congratulations! you have successfully endured the rocky road of medical school, and now no one can take that away. be proud of yourself and confident in your ability as you progress into your residency and career. i know we all are. it is my pleasure to have been part of your journey and i look forward to its continuation.

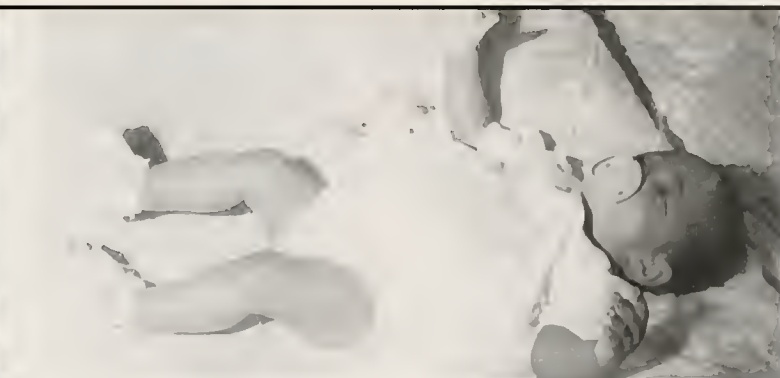

with love, jeremy

may 15, 2006

*Wake Forest University
School of Medicine*

congratulations

Our goal is to
make man whole!
Congratulations
from Dad, Mom,
& Audley

Dear Victoria: I always thank God for you. God has truly blessed you and shown His favor in your life. It is such a joy and blessing to see you grow into a woman of grace, purity, and compassion. The Lord bless you and keep you; the Lord make His face shine upon you and be gracious to you; The Lord lift up His countenance upon you and give you peace.

-Numbers 6: 24-26

-Proverbs 3: 5-6

Love, HIS and Mine
Mom

My prayer for you Kurt:
Let me always remember Lord
that You have ultimate control.
But when You need human help,
use me.

Use my mind and knowledge
to heal and serve,
my hands
to touch the lives of others.

Use my arms
to comfort and console,
my heart
to show compassion and love.

Use my faith
to show others that I belong to You,
and my spirit
to see the endless possibilities
that You set before me.

Help me "make a difference" in the lives of
Your children great and small.

You have put me here for a Purpose.
May I fulfill what you have designed for me.

I love you Kurt....MAKE A DIFFERENCE! Mom

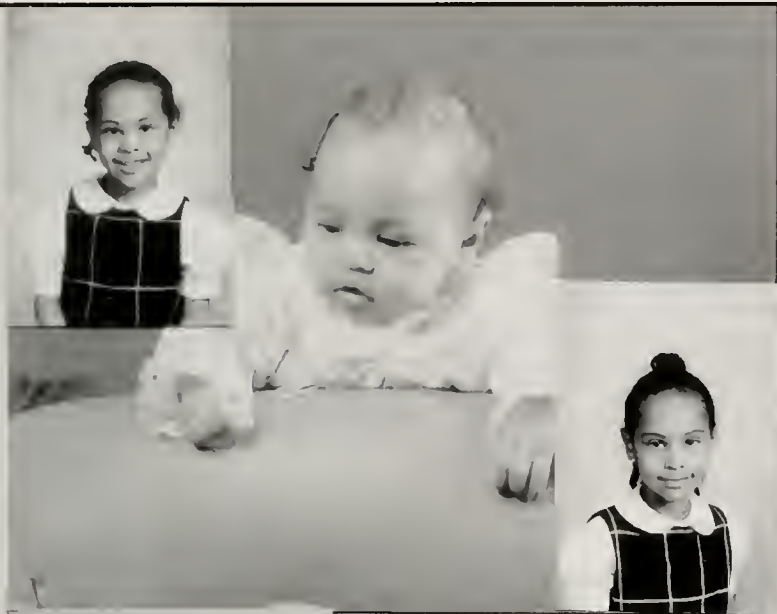

Congratulations Zewditu!

We are so very proud of you! We always knew you would soar!

Please Remember "You make a living by what you take, and you make a life by what you give." Winston Churchill

Love,

Mum, Dad, Sofya, Engeda, Aunt Shirley and the rest of the family

Dear Son,
 To God be the Glory and the Honor,
 To your wife the love and support,
 To you the strength and courage,
 Intelligence and persistence,
 To your parents the satisfaction of
 A cherished dream,
 To your brothers the pride and the prime,
 Example of determination,
 To your children the benefit of a better,
 Healthier and happier life,
 To your friends and frat brothers the
 exhilaration,
 To your aunts, uncles and cousins
 happiness,
 Son, we share your joy as you have
 Finished this long journey of medical school,
 Now it's time to give thanks to the Lord.

HOORAY!!!!YOU MADE IT!

Love,
 Mom, Dad, Karl and Jason

To the love of my life,
 You did it! I never doubted that you could. I
 above all people know how physically and
 mentally exhausting these years have been,
 especially married with children. You have
 done your best to balance family and school.
 You are a wonderful father who adores his
 children and I know that all of your hard work
 and sacrifice has been for a better future,
 especially for them. So that they will not
 have to struggle the way we have and even
 though they are young, with time they will
 realize this and thank you for it. THANK
 YOU for being such a loving, caring,
 responsible and understanding husband,
 father, son, brother, friend and now doctor.
 You'll be a great psychiatrist!

We love you very much,
 Your wife and kids,
 Aida, Angelina and Frantz Eli, Jr.

Frantz,
 We would like to congratulate you on all your
 endeavors. May God Bless you and
 continue to give you wisdom and strength to
 follow your future dreams.
 We love you and we are very proud of you,
 Manuel, Mabel, Vanessa and Jessinia Jijon

Dear Nicky,

Today as you graduate from medical school, we celebrate your extraordinary accomplishments. Your ability to display compassion and commitment has always come naturally and we believe these traits will benefit you immensely as a physician.

We are extremely proud of you and love you.

Grammy Ruth, Aunt Yvonne, Aunt Joan, Uncle Phil
Amber, Justin, Chelsea, and Kristen

Congratu-
lations Nicole
from Auntie
Val, Uncle
Eric, Erica, &
Ricky

We are so proud of
you! Congratulations
Nicole. From
Dominique, Denise,
Kheli, & Kristin

Congratulations on making
your dream a success, Dr.
Bradley! I am so incredibly
proud of you. I will love you
forever and always. Ellen

Congratulations
Class of 2006!

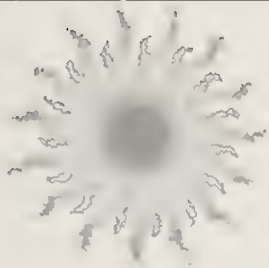

*As you graduate, the future
and the tradition are yours.*

CONGRATULATIONS TO
OUR NEWEST ALUMNI
THE CLASS OF 2006!

THE MEDICAL ALUMNI ASSOCIATION OF
WAKE FOREST UNIVERSITY SCHOOL OF MEDICINE

Trouble

Beatriz M. Rodriguez, MD

The trouble with Med students is they are young,
not young like spring time
but young like a morning,
full of possibility
full of questions you have stopped asking.
And sometimes they look at you with this admiration that seems
misdirected.
They are lean, they haven't yet inhaled the
stale donuts and coffee of the 3 a.m. ICU.
They are still reverent about death and admire your irreverence.
The trouble with Med students is they follow
you around, they page you, they work to keep up with you,
you work to stay ahead.
The trouble is they stop you, they look in your eyes and they ask.
The trouble with Med students is they touch you
and make you feel something.
And that is a bittersweet thing, for we haven't time to
feel, but to feel is such a sweet memory that it is in a
way quite exhilarating and you find you have wasted time with it.
Then at night when exhausted . . . you lie . . . you remember that
feeling and wonder where it came from and if it will come again.
And in the early morning madness of rounds you look, perhaps too
expectantly,
for that young face of morning.
And you check yourself and self-admonish.
But still you look for that face.
And recall that strange look your own teachers used to
give you, part awe, part irritation
and you smile at the legacy.

We would like to thank our yearbook staff listed below who contributed their time and effort towards making this yearbook possible! We couldn't have done it without you!

Colophon

The Gray Matter: Volume 62 was produced by the yearbook staff at Wake Forest University School of Medicine and was printed by Jostens in Winston-Salem. The account was serviced by Sales Representative John Troy and Plant Consultant Kristen Stimmell.

Cover: The cover was designed with the assistance of Hank Whitaker of Jostens. It is a Four Color Litho with Super Matte Lamination and U/V Application. The end sheets are made of 150 Pound Contempore Recyled Paper with Black Ink.

Production: The 248 pages of this book are printed on 80 Pound Karisma Gloss. All layouts were submitted via the internet using Jostens Yeartech Online. The book was printed on a Six Color Heidelberg Offset Press.

Photography: All photographs were digital or were digitalized. All portraits, the cover art and some additional photos were taken by Creative Communications and were provided to us by Linda Arcure and Will Wilner. Individual members of the Classes of 2006, 2007, 2008 and 2009, the Physician Assistant Program and the Graduate Studies Program provided candid photographs.

Advisors: Lynn Snyder and Dr. Ernest
